MHTTC Network

Heather J. Gotham, PhD

Director, MHTTC Network Coordinating Office

Clinical Associate Professor

Stanford University School of Medicine

SAMHSA

Substance Abuse and Mental Health
Services Administration

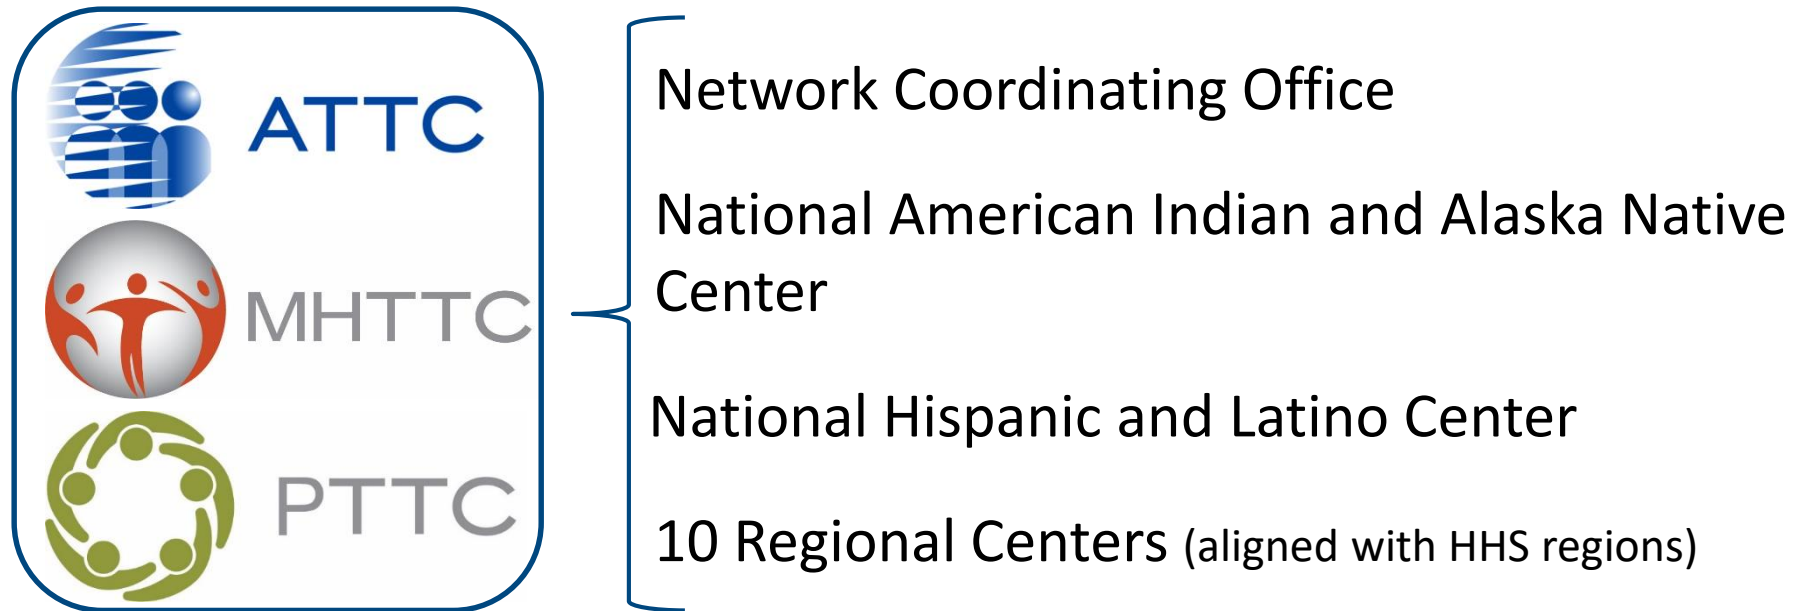

1

Develop and strengthen the **workforces** that provide substance use disorder and mental health disorder prevention, treatment, and recovery support services.

2

Help people and organizations incorporate **effective practices** into substance use and mental health disorder prevention, treatment, and recovery services.

Each TTC Network includes 13 centers.*

**The ATTC Network also includes 4 international HIV centers funded by the President's Emergency Plan for AIDS Relief.*

NCOs

- Network wide coordination
- Nationwide activities coordination
- Main platform for training access
- Liaison for national and international focused activities

National
Focus Area
Centers

- Serve as center of excellence/subject matter expert for specific populations nationally
- Support national stakeholders/entities that focus on specific populations
- Provide support for regional TTCs
- Collaborate with Network Coordinating Office for nationwide activities

Regional
Centers

- Develop & implement regional approach for workforce dev. activities
- Coordinate with Network Coordinating Office for nationwide activities
- Coordinate with national TTCs to support specific pops in regions
- Collaborate with SAMHSA Reg. Admins to support the region

MHTTC Network

- The MHTTC Network accelerates the adoption and implementation of mental health related evidence-based practices across the nation
- Funding for this 5-year project began on August 15, 2018.
 - Regional Centers - \$750K/yr + \$500K/yr for School Mental Health Supplement
 - National Focus Area Centers - \$500K/yr + \$500K/yr for School Mental Health Supplement
 - Network Coordinating Office - \$600K/yr + \$300K/yr for School Mental Health Supplement

OLD WAY

NEW WAY

How We Provide Training and TA

- Rather than a TA request model, the TTCs have yearly workplans developed through needs assessments, advisory boards, and input from key stakeholders including state MH directors and SAMHSA Regional Administrators
- Centers consider:
 - Spread of services across the region/population
 - Intensity of services: universal, targeted, and intensive
 - Flexibility to respond to emerging needs
- Implementation science informs training and TA strategies
 - Consider the context - what is really needed to move an evidence-based practice forward?
 - Organizational development, systems work, policy, training, technical assistance
 - Use implementation strategies specific to the need
 - Maximize impact on service delivery systems

Mountain Plains (HHS Region 8)

MHTTC Mental Health Technology Transfer Center Network
Funded by Substance Abuse and Mental Health Services Administration

Building Capacity of School Personnel to Promote Positive Mental Health in Children and Youth

This course trains school personnel in a mental health promotion initiative (Every Moment Counts) developed to help all children and youth become mentally healthy in order to succeed in school, at home and in the community. This work focuses on reframing mental health as a positive state of functioning – it is more than the absence of mental illness. Positive mental health is associated with feeling good emotionally and doing well functionally in everyday life. For children and youth, this means doing well during academic (classroom) as well as nonacademic (recess, lunch, after-school extracurricular activities) times of the day. Mental health is an integral part of overall health.

Northwest (HHS Region 10)

MHTTC Mental Health Technology Transfer Center Network
Funded by Substance Abuse and Mental Health Services Administration

Violence Risk Assessment & Management is a self-paced e-learning course that provides the necessary tools for clinicians to assess, manage, and stabilize threats of violence in clinical settings. Participants will learn:
